

Professional traction hoist with 3 hooks allowing to pull horizontally up to 4 T. The energy is transmitted by a 3 m high-strength steel cable with a 6mm diameter. The transmission ratio is 15:1.

- Steel structure, cable and lever.
- Forged steel hooks with safety latch.
- 3rd detachable hook to double the working length by halving the load capacity.
- Complies with European standards.

AREAS OF APPLICATION

- Straightening work
- Craftsmanship
- Major efforts

Caution: Do not use for lifting! Traction only
