## 383CV 70X198MM

This powerful and compact direct electric orbital sander, Mirka® DEOS 383CV, is the newest member in the Mirka electric sander family. At only 10 cm high, the tool's compact and very low profile gives a high maneuverability and helps deliver a precise and efficient sanding performance. This small and light sander is naturally equipped with a brushless motor. The optimized ergonomics enable a comfortable grip. The machine has an easy to operate lever to control motor speed. It possesses also a separate on/off switch for easy and safe handling. The low profile and small size make Mirka® DEOS 383CV ideal for body filler and primer sanding applications. In combination with Mirka's net abrasives the tool offers fast, efficient and dust-free sanding performance.
