

Ideal for car body repair and mechanical workshops, this fully pneumatic vehicle lift can lift the front or rear of a vehicle (2.5T max). The SPOT LIFT Pro improves productivity by letting the user work in a more comfortable position.

Easy to fit under the vehicle (14 cm high at the lowest position).

2 sill height-extension adaptors for 4x4 vehicles (options : ref. 048751)

Pads with adjustable height

Up/down pneumatic control.

Articulated arm

Steel pad with anti slip rubber coating.

OPTION

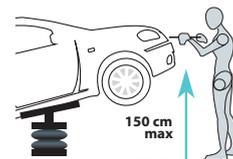

Safety links to secure the vehicle after lifting.

Directional wheels (x2) help with positioning when the machine is in its lowest position/under a vehicle.

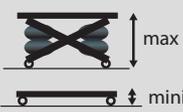

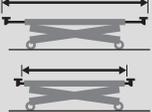

The SPOT LIFT Pro improves productivity by letting the user work in a more comfortable position.

Can prevent long term injuries to the back and knees by avoiding repetitive work whilst bending or crouching.
